

for an excellent finish

Accessories: Fastlock backing pad, hard, system R

Hard backing pad for discs with Fastlock system R

Product benefits

- Fixed integrated Fastlock system for optimal disc fixation and quick disc change as well as for a high level of work safety during grinding
- Due to high material hardness especially suitable for applications with high grinding pressure and high load

Applications

General:

- Punctual processing of a wide variety of metal surfaces in hard-to-reach areas
