

for an excellent finish

## Accessories: VEL Backing pad MULTIHOLE, hard

Hard, universally applicable polyurethane Velcro backing pad with optimal dust extraction

### Product benefits

- Optimum dust extraction, especially when using MULTIHOLE discs
- Bevelled backing pad edge for better machining of hard-to-reach areas and reduction of the risk of visible grinding marks
- Backing pad weight adjusted to all common random orbital sanding machines
- Safe working due to very good Velcro adhesion of the discs
- Additional adapters and fixing screws for universal use
- Different backing pad hardnesses available in the Hermes product range depending on the application

### Applications

#### Automotive body shop:

- Manual defect grinding of surfaces
