

for an excellent finish

Accessories: VEL Backing pad MULTIHOLE, medium

Medium-hard, universally applicable polyurethane
Velcro backing pad with optimal dust extraction

Product benefits

- Optimum dust extraction, especially when using MULTIHOLE discs
- Bevelled backing pad edge for better machining of hard-to-reach areas and reduction of the risk of visible grinding marks
- Backing pad weight adjusted to all common random orbital sanding machines
- Safe working due to very good Velcro adhesion of the discs
- Additional adapters and fixing screws for universal use
- Different backing pad hardnesses available in the Hermes product range depending on the application

Applications

General:

- All sanding applications in lacquer, wood, composite and metal processing on random orbital sanding machines
