

Very stiff high-performance file grinder belts with ceramic grain and heat-reducing coating

Product benefits

HERMES

- High productivity and economic efficiency
- Hard and sharp ceramic abrasive grit ensures high stock removal rates and long tool life
- High tear resistant, low stretch and waterproof polyester backing
- Low grinding temperatures and longer tool life due to additional Procut coating

Applications

Tank and vessel construction:

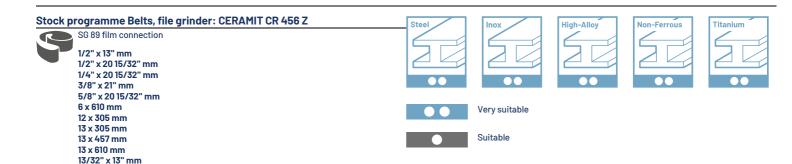

- Cleaning of weld seams with powerfile belts
- · Weld seam stock removal with powerfile belts
