

for an excellent finish

Belts, narrow: Brilliance Film FC 164 Longlife, VEL

Powerful, very edge-stable and tear-resistant aluminum oxide film belts with anti-clogging coating

Product benefits

- High productivity and economic efficiency
- Uniform finish quality as perfect preparation for subsequent lacquering and polishing processes
- Highly tear-resistant and uniform film backing ensures reliable process for superfinishing
- Very good finish quality as the perfect preparation for subsequent processing steps
- Optimum dust extraction, especially when using MULTIHOLE discs
- Further advantages when using discs with MULTIHOLE dust extraction system: Longer service life compared to discs with conventional dust extraction system and significantly better surface quality due to dust extraction over the entire surface.

Applications

Lacquered wood parts:

- Lacquer sanding on long belt sanding machines

Product design

Type:	Brilliance Film FC 164-Longlife, velour-backed
Grain:	Aluminum oxide
Bonding:	Synthetic resin, with active ingredient coating
Backing:	Film, velour-backed
Coating:	Half open
Grit range:	P 240/320/400/500/600/800/1000/1200/1500/2000
