

for an excellent finish

Belts, narrow: CERAMIT CR 456 J-flex

Very flexible high-performance cloth belt with ceramic grain and a heat-reducing coating

Product benefits

- High productivity and economic efficiency
- Hard and sharp ceramic abrasive grit ensures high stock removal rates and long tool life
- Low grinding temperatures due to additional temperature-reducing coating
- Very adaptable, highly flexible J-flex cloth backing

Applications

Forged and cast parts:

- Grinding surgical instruments
- Grinding implants
- Deburring and initial grinding of cutlery
- Finishing cutlery
