

for an excellent finish

## Belts, wide: BW 116

**Active ingredient-coated, high-performance aluminum oxide wide paper belts**

### Product benefits

- Very long tool life due to high-performance aluminum oxide abrasive grit
- Low grinding temperatures due to additional temperature-reducing coating
- Special product for machining coils and metal plates with low material thicknesses

### Applications

#### Sheets, plates, coils:

- Brush finish of stainless steel sheets/coils with cork polishing belts
- Finish of stainless steel sheets/coils
- Duplo finish of stainless steel sheets/coils

### Product design

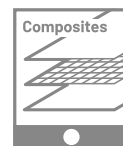

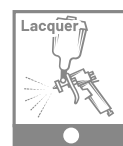

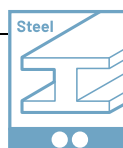

Type:	BW 116
Grain:	Aluminum oxide
Bonding:	Synthetic resin, with active ingredient coating
Backing:	F-weight paper
Coating:	Closed
Grit range:	P 60/80/100/120/150/180/220/240/280/320/400
