

for an excellent finish

## Discs: HERMESIT RB 530 J, velour-backed

Velour-backed and flexible HERMESIT discs with aluminium oxide abrasive grain

### Product benefits

- Three-dimensional HERMESIT hollow sphere grit structure extends tool life by 3-5 times, thereby increasing cost-effectiveness and productivity compared to conventional grinding tools (shorter machine setup times, lower costs for materials and disposal)
- High process stability due to uniform roughness values and stock removal rate for the entire duration of usage
- Especially suitable for applications with low grinding pressure

### Applications

#### Automotive body shop:

- Defect grinding with angle grinders
- Surface finishing with random orbital sanders
