

for an excellent finish

Discs: ProTec Film FC 161-Longlife, velour-backed

Velour-backed aluminum oxide film disc with Longlife coating

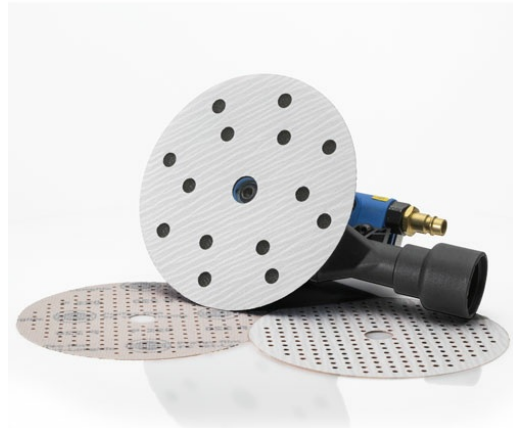

Product benefits

- Long service life of the grinding tool
- High edge stability
- High tear resistance
- High productivity and economic efficiency
- The ProTec recipe meets the latest requirements of the automotive industry for grinding tools for use on aluminum surfaces
- Further advantages when using discs with MULTIHOLE dust extraction system: Longer service life compared to discs with conventional dust extraction system and significantly better surface quality due to dust extraction over the entire surface.

Applications

Automotive body shop:

- Manual defect grinding of surfaces

Product design

Type:	ProTec Film FC 161-Longlife, velour-backed
Grain:	Aluminum oxide
Bonding:	Synthetic resin, with active ingredient coating
Backing:	Film, velour-backed
Coating:	Open
Grit range:	P 80/100/120/150/180/220

for an excellent finish
