

for an excellent finish

Sheets: SF 168

Highly flexible, additive-coated silicon carbide paper abrasive sheets

Product benefits

- Very adaptable, highly flexible paper backing
- Open grain coating and optimized Longlife coating ensures low clogging behavior
- Outstanding sanding pattern on transparent lacquer systems
- Especially suitable for intermediate lacquer sanding

Applications

Wood working:

- Initial, intermediate and fine sanding of wood in preparation for staining and lacquering

Sheets, plates, coils:

- Fine grinding of non-ferrous metal plates before electroplating/anodizing

Lacquered wood parts:

- Manual lacquer sanding

Product design

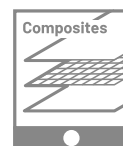

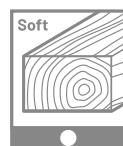

Type:	SF 168
Grain:	Silicon carbide
Bonding:	Synthetic resin, Longlife
Backing:	A-weight paper
Coating:	Open
Grit range:	P 80/120/150/180/220/240/320/400/500

Stock programme Sheets: SF 168

without holes

9" x 11" mm
