In addition, a premium specification is available as a semi-finished product to use for combi worms.

PERFORMANCE CLASSES OF OUR STANDARD SPECIFICATIONS

To ensure that your process is as efficient as possible, we offer you our standard specifications in various performance classes. This allows you to find the right tool for your requirements:

- CLASSIC** Cost-effective solution for grinding small series
- PERFORMANCE** Powerful all-round specification
- PREMIUM** Very high cutting performance paired with very good profile stability
- PREMIUM+** Solution with highest cutting performance and tool life
