

FLAP WHEELS

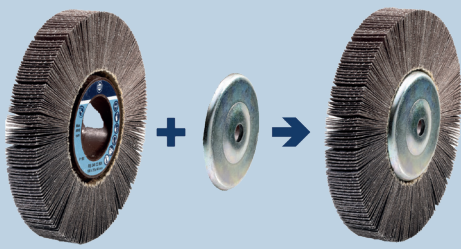

Maximum productivity and surface quality when cleaning, deburring and finishing demanding workpieces

Your advantages

- Very long tool life with consistent high stock removal and high quality grinding results throughout the life of the tool
- Safe and comfortable operating
- Wide range of applications, especially for contoured, uneven and more intricate workpieces
- Economic grinding

Constructed to high safety standards

High quality, solid metal side plate guarantees:

- + safe assembly
- + secure mounting of the tool
- + protection against tool damage
- + smooth running

for an excellent finish

FLAP WHEELS

Maximum productivity and surface quality when cleaning, deburring and finishing demanding workpieces

Materials	Steel and non-ferrous metals, coatings / lacquers		
Application areas	Stationary, manual or robotic applications for... <ul style="list-style-type: none"> • Cleaning, rust removal • Blending, deburring of welds and sharp edges • Oxide and tarnish removal • Removal of coatings such as old varnish • Fine sanding, finishing 		
Your Advantages	<ul style="list-style-type: none"> • Consistently high stock removal rate due to consistency of flap construction • Economical grinding due to significantly longer tool life compared to belt grinding • Constant surface quality due to uniform flap distribution • User-friendly operation due to low noise level, low vibration and high safety standard • Wide range of applications 		
Abrasive grain	Aluminum oxide / ceramic grain		
Bonding	Resin		
Backing	X-cloth (heavy cotton fabric)		
Grit range	P 60 - P 240		
Dimensions	Outer-Ø	Width	Ø Borehole
	165 mm / 6½"	25 mm / 1"	48 mm / 1⅞"
		50 mm / 2"	
	250 mm / 10"	50 mm / 2"	80 mm / 3 ⅝"
Additional dimensions available upon request in compliance with minimum order quantities.			
Accessories	Side plate
