

MERCURIT® RB 591 Y OP

Adaptive longlife abrasive belt with open-coated, high-performance agglomerate grain for grinding tubes and rods

Your advantages

- Longlife abrasive guarantees high process stability thanks to high-quality agglomerate grain
- Excellent results when removing weld seams on stainless steel tubes, especially with smaller diameters
- Consistent roughness values and stock removal rates throughout entire tool life
- Suitable for wet and dry grinding as well as for applications with low to medium contact pressure

MERCURIT® RB 591 Y OP

Adaptive long-life abrasive belt with open-coated, high-performance agglomerate grain for grinding tubes and pipes

Materials & workpieces	<ul style="list-style-type: none">Stainless steel and steel tubes, rods and cylindersStainless steel and steel sheets and coils
Applications	<ul style="list-style-type: none">Levelling of weld seams on stainless steel/steel pipes especially with small diametersApplications with low to medium grinding pressureWet and dry grindingCan be used on flat grinding machines with medium grinding pressure
Abrasive grain	MERCURIT® aluminium oxide (agglomerate)
Coating	Open 
Bonding	Resin
Backing	Y-PES cloth
Grit size	P 80 and P 120
Delivery forms	Wide belts and narrow belts
