

VITRA

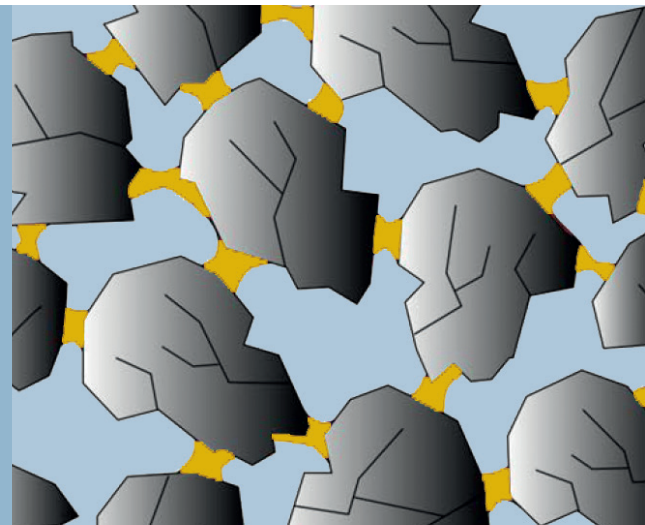

Enhanced high-performance, low-fired bond for Hermes grinding tools

Your product benefits

- Optimized pore structure to **increase the intake of coolant** and **improved chip removal**
- **Significantly lower temperature stress** during grinding
- **Shorter grinding times** by higher material removal rates
- **Universal use** with fused and sintered aluminum oxide

STANDARD BOND

VITRA BOND

Description

VITRA represents the latest generation of vitrified-bonded Hermes-precision grinding tools. It is based on an advanced high-performance, low-fired bond and an optimized microstructure.

Product Data

VITRA grinding wheels are available in all aluminum oxide abrasive types, including sintered aluminium oxide grain and grit sizes up to 200.
